UNIVERZITET U BEOGRADU – FARMACEUTSKI FAKULTET

IZBORNOM VEĆU FARMACEUTSKOG FAKULTETA

Na osnovu Odluke Izbornog veća Farmaceutskog fakulteta Univerziteta u Beogradu br. 456/1 od 5. marta 2026. godine, imenovana je Komisija za pripremu referata o prijavljenim kandidatima po raspisanom konkursu za izbor jednog asistenta za užu naučnu oblast Toksikologija Farmaceutskog fakulteta u Beogradu.

Na konkurs koji je objavljen u listu „Poslovi“ od dana 18.03.2026. godine/broj 1189 prijavio se jedan kandidat, mag. farm. Đurđica Marić, asistent, zaposlena na Katedri za toksikologiju „Akademik Danilo Soldatović“ Univerziteta u Beogradu – Farmaceutskog fakulteta.

Komisija u sastavu:

1. Dr Biljana Antonijević, redovni profesor, Univerzitet u Beogradu – Farmaceutski fakultet
 2. Dr Aleksandra Buha Đorđević, vanredni profesor, Univerzitet u Beogradu – Farmaceutski fakultet
 3. Dr Petar Bulat, redovni profesor, Medicinski fakultet, Univerzitet u Beogradu
- pregledala je dokumentaciju koju je kandidat priložio i Izbornom veću Farmaceutskog fakulteta Univerziteta u Beogradu podnosi sledeći:

IZVEŠTAJ

Na raspisani konkurs za izbor 1 (jednog) asistenta za užu naučnu oblast Toksikologija na određeno vreme od 3 godine sa punim radnim vremenom, objavljenom u listu „Poslovi“ dana 18.03.2026. broj: 1189, prijavio se 1 (jedan) kandidat: mag. farm. Đurđica Marić, asistent, zaposlena na Katedri za toksikologiju „Akademik Danilo Soldatović“ Univerziteta u Beogradu – Farmaceutskog fakulteta.

Na osnovu priložene dokumentacije utvrđeno je da kandidat ispunjava opšte uslove konkursa, te podnosimo detaljan izveštaj, kao i zaključno mišljenje i predlog.

Prijavljeni kandidat upisan je na Doktorske akademske studije (DAS) Univerziteta u Beogradu – Farmaceutskog fakulteta, DAS – Farmaceutske nauke, školske 2020/21. godine. Komisija je izvršila procenu dokumentacije kandidata i sagledala uspešnost tokom studiranja na integrisanim akademskim studijama i doktorskim akademskim studijama, zatim angažovanje u nastavi/radu sa studentima i najzad rezultate naučno-istraživačkog rada. U daljem tekstu Izveštaja slede podaci o prijavljenom kandidatu.

Mag. farm. Đurđica Marić, asistent

Đurđica Marić je rođena 6. maja 1996. godine u Užicu. Osnovnu školu „Mito Igumanović“ u Kosjeriću završila je kao nosilac „Vukove diplome“ i dak generacije. Potom je završila srednju Medicinsku školu u Užicu, smer farmaceutski tehničar, takođe kao nosilac „Vukove diplome“. Farmaceutski fakultet Univerziteta u Beogradu, smer magistar farmacije, upisala je školske 2015/16. godine. Tokom studija bila je stipendista Ministarstva prosvete, nauke i tehnološkog razvoja Republike Srbije. Završni rad pod nazivom „Uticaj intoksikacije kadmijumom na nivo bioclemenata u tkivu testisa pacova“ uradila je na Katedri za toksikologiju „Akademik Danilo Soldatović“, pod mentorstvom prof. dr Aleksandre Buha Đorđević. Integrisane akademske studije završila je 10. septembra 2020. godine sa prosečnom ocenom 9,27.

Doktorske akademske studije na Univerzitetu u Beogradu – Farmaceutskom fakultetu, DAS – Farmaceutske nauke upisala je školske 2020/21. godine. U istoj školskoj godini upisala je i specijalističke akademske studije, modul Toksikološka procena rizika, koje je završila 30. septembra 2021. godine sa prosečnom ocenom 10,00. Završni projektni zadatak pod nazivom „Upotreba podataka dobijenih u studijama humanog biomonitoringa u proceni izloženosti opšte populacije toksičnim metalima“ ocenjen je ocenom 10.

U periodu od oktobra 2020. do februara 2021. godine bila je angažovana u zvanju saradnik u nastavi na Katedri za toksikologiju „Akademik Danilo Soldatović“. Od tada kontinuirano učestvuje u pripremi i realizaciji praktične nastave na integrisanim akademskim studijama, i to na obaveznim predmetima Toksikologija sa analitikom (studijski programi Farmacija i Farmacija–medicinska biohemija) i Kliničko-toksikološke analize (studijski program Farmacija–medicinska biohemija), kao i na izbornim predmetima u okviru Katedre. Od marta 2021. godine bila je zaposlena u zvanju istraživač-pripravnik na projektu finansiranom od strane Ministarstva prosvete, nauke i tehnološkog razvoja, odnosno Ministarstva nauke, tehnološkog razvoja i inovacija Republike Srbije, u okviru ugovora zaključenih sa Univerzitetom u Beogradu

Farmaceutskim fakultetom za 2021. (broj: 451-03-9/2021-14/200161), 2022. (broj: 451-03-68/2022-14/200161) i 2023. godinu (broj: 451-03-47/2023-01/200161). U julu 2023. godine izabrana je u zvanje asistenta za užu naučnu oblast Toksikologija, u kojem je i trenutno zaposlena na istoj Katedri. U toku dosadašnjeg rada bila je komentor na devet studentskih naučno-istraživačkih radova realizovanih na Katedri za toksikologiju u okviru Centra za naučno-istraživački rad studenata Farmaceutskog fakulteta u Beogradu, a bila je i član komisije za odbranu dvadeset završnih radova urađenih na istoj Katedri.

U periodu od 2021. do 2025. godine učestvovala je u realizaciji *COST* akcije *CA20121 „Bench to bedside transition for pharmacological regulation of NRF2 in noncommunicable diseases – BenBedPhar“*, finansirane od strane Evropske komisije. U istom periodu bila je angažovana i na naučno-istraživačkom i razvojnom projektu „Povećanje efikasnosti imunoterapije karcinoma kombinacijom CAR-T ćelija ili PD-1/PD-L1 inhibitora sa imunomodulatorima“ (2021–2024), koji se sprovodio u okviru saradnje Republike Srbije i Narodne Republike Kine. Tokom 2021. i 2022. godine bila je učesnik projekata „Informisana mama, zdrava beba – kako bezbedno živeti sa hemikalijama“ i „Za zdravu bebu – informisana mama u svetu hemikalija“, realizovanih u okviru Programa 1802 „Preventivna zdravstvena zaštita“, Projekat 0012 – „Podrška aktivnostima udruženja građana u oblasti zdravstvene zaštite“, koje je finansiralo Ministarstvo zdravlja Republike Srbije. Od marta do septembra 2022. godine učestvovala je kao istraživač na projektu „Dekodiranje uloge ekspozoma u endokrinom zdravlju ljudi – *DecodExpo*“, realizovanom u okviru programa za izvrsne projekte mladih istraživača (PROMIS) Fonda za nauku Republike Srbije. Tokom perioda 2022–2024. godine učestvovala je

na Erasmus+ KA2 projektu Udruženja toksikologa Srbije „Upoznaj toksičnost – živi bezbedno“ / *Meet the toxicity live safely (MeeTox)*. Takođe, bila je angažovana kao istraživač na međunarodnom naučno-istraživačkom projektu „*Evaluating the effectiveness of the perinatal environmental health educational intervention in reducing maternal and infant exposure to EDCs*“ (NYU Langone CEHRT, SAD), kao i na projektu „*Chemical Exposure Reduction: Empowering Pregnant Women through Education and Choice*“ (CH-EMPOWER, Fond za nauku Republike Srbije, Proof-of-Concept program, 2024–2025). Trenutno učestvuje u COST akciji CA24108 „*Oxidative stress at the Crossroads of Adverse Outcome Pathways – pesticides One Health (CAPSTONE)*“ (2025–2029), kao i u tri bilateralna naučno-istraživačka projekta, od kojih se dva realizuju u saradnji sa Francuskom, a jedan sa Turskom.

Mag. farm. Đurđica Marić je objavila ukupno 110 bibliografskih jedinica (radova i saopštenja):

- 21 rad u časopisima kategorije M20, od toga 5 radova u vodećim međunarodnim časopisima kategorije M21a+, 9 radova u vodećim međunarodnim časopisima kategorije M21a, 3 rada u vodećim međunarodnim časopisima kategorije M21 i 4 rada u međunarodnim časopisima kategorije M22
- 1 rad u međunarodnom časopisu koji nije na SCI listi
- 4 rada u vrhunskom nacionalnom časopisu (M51)
- 1 predavanje po pozivu sa međunarodnog skupa štampano u izvodu (M32)
- 2 saopštenje sa međunarodnih skupova štampana u celini (M33)
- 68 saopštenja sa međunarodnih skupova štampana u izvodu (M34)
- 4 saopštenja sa skupa nacionalnog značaja štampana u celini (M63)
- 9 saopštenja sa skupa nacionalnog značaja štampana u izvodu (M64)

Đurđica Marić je pohađala više domaćih i međunarodnih kurseva. U februaru 2021. godine pohađala je kurs „Principi rada sa eksperimentalnim životinjama“, u organizaciji Medicinskog fakulteta Univerziteta u Beogradu. U periodu od 11. do 15. oktobra 2021. godine pohađala je onlajn kurs „*Adverse Outcome Pathways (AOPs) – principles and applications in toxicology and health risk assessment*“, u organizaciji Karolinska instituta, Stoholm, Švedska. Tokom 2022. godine učestvovala je na više stručnih programa i obuka, uključujući vebinar COST akcije BenBedPhar pod nazivom „*Oxidative Stress: Biochemical and Pharmacological aspects NRF2 and Cancer*“ (03.03.2022), kao i vebinar „*Oxidative Stress: NRF2 and vascular diseases*“ (26.04.2022). Iste godine pohađala je i „*JUTOX Risk Assessment Summer School*“, u organizaciji Udruženja toksikologa Turske u Istanbulu (23–27. maj 2022), kao i kurs „*Adverse Outcome Pathways: Development and evaluation of quantitative AOPs and examples of their application*“, koji je održan u okviru XVI Međunarodnog kongresa toksikologa (ICT2022) u Matrihtu, Holandija (18.09.2022.). Takođe je završila kurs „*Principles of toxicology and risk assessment*“, koji je organizovao Centar za toksikološku procenu rizika na Univerzitetu u Beogradu – Farmaceutskom fakultetu (7–9. decembar 2022). U narednom periodu usavršavanje je nastavila kroz učešće na radionicama „*Risk Assessment from A to Z*“, koje je organizovala EISA tokom 2024. i 2025. godine u Beogradu, Podgorici i Skoplju. U julu 2025. godine pohađala je letnju školu BIOTOX na Slovak University of Agriculture u Nitri, Fakultetu biotehnologije i prehrambenih nauka, Institut za primenjenu biologiju (6–12. jul 2025), kao i kurs „*Course in Biostatistics with R for Specialists in Laboratory Medicine*“ na Univerzitetu u Beogradu Farmaceutskom fakultetu (1–3. jul 2025).

Član je Udruženja farmaceuta Beograd i Saveza farmaceutskih udruženja Srbije (SFUS), Udruženja toksikologa Srbije, Evropskog udruženja toksikologa – EUROTOX (engl. *Federation of European Toxicologists and European Societies of Toxicology*) i Međunarodnog udruženja toksikologa – IUTOX (engl. *International Union of Toxicology*).

SPISAK RADOVA I SAOPŠTENJA

Radovi u vodećem međunarodnom časopisu kategorije M21a+ (5)

1. Baralić K, Javorac D, **Marić D**, Đukić-Čosić D, Bulat Z, Antonijević Miljković E, Anđelković M, Antonijević B, Aschner M, Buha Djordjevic A. 2022. Benchmark dose approach in investigating the relationship between blood metal levels and reproductive hormones: Data set from human study. *Environment International* 165, 107313. (13,328)

MIŠLJENJE I PREDLOG

Na raspisani konkurs za jednog asistenta za užu naučnu oblast Toksikologija javio se jedan kandidat, mag. farm. Durdica Marić, asistent, zaposlena na Katedri za toksikologiju „Akademik Danilo Soldatović“ Univerziteta u Beogradu – Farmaceutskog fakulteta.

Na osnovu detaljne analize dostavljene dokumentacije, članovi Komisije konstatuju da kandidat ispunjava sve uslove prema važećim zakonskim propisima za izbor u zvanje asistenta i poseduju izuzetne kvalitete imajući u vidu angažovanje u nastavi/radu sa studentima kao i rezultate u naučno-istraživačkom radu.

U skladu sa svime navedenim, članovi Komisije predlažu Izbornom veću Farmaceutskog fakulteta Univerziteta u Beogradu da izabere mag. farm. Durdicu Marić u zvanje asistenta za užu naučnu oblast Toksikologija.

Beograd, 15. april 2026. godine

Članovi Komisije

1. 

Dr Biljana Antonijević, redovni profesor
Univerzitet u Beogradu – Farmaceutski fakultet

2. 

Dr Aleksandra Buha Đorđević, vanredni profesor
Univerzitet u Beogradu – Farmaceutski fakultet

3. 

Dr Petar Bulat, redovni profesor
Univerzitet u Beogradu – Medicinski fakultet
